ABOUT ME

I'm a fresh graduate from Telkom Malang Vocational High School, majoring in Software Engineering with a strong passion for web development. Specializing in Laravel, React, and NextJS framework. Familiar with programming languages Python and Java. Strong problem-solving skills and an ability to troubleshoot complex issues efficiently. Also, always eager to learn new things and stay updated with the latest technological advancements.

EXPERIENCES

Telkom Akses, South Jakarta

(May 2022 - November 2022)

IT Support

Created a payload to convert data from sensors to real data. Contributed to making the frontend Dashboard for monitoring and controlling sensors using API. Analyzed data to determine if a sensor is malfunctioning. Listed, Tested, Deployed, and installed IoT Sensors

EDUCATION

Malang Telkom Vocational High School

(June 2020 - May 2023)

High School Software Engineer

I learned logic and basic programming using Java in the first semester. I also studied web development, including HTML, CSS, PHP, and JavaScript, and explored Bootstrap for UI design.

In the second semester, I built a car rental project using PHP Native for my advancement to the next level.

During the third semester, I focused on React for front-end and NodeJS for back-end development.

For six months in the fourth and fifth semesters, I had an internship where I learned Laravel.

In the sixth semester, I created a web receptionist system for a hotel using Laravel Blade for my graduation requirement. Throughout, I've enjoyed learning and staying updated with technology.

SKILLS

HTML, CSS, Tailwind, PHP, JavaScript, Python, Laravel Framework, React, NextJS, NodeJS.
